OBJECTIVE

To obtain a position as an internet/multimedia professional at a dynamic company or institution with a positive atmosphere, utilizing my skills and experience to obtain the organization's goals and further advance my skills.

PROFILE

- Experienced with and proficient in HTML/XHTML, CSS, XML, PHP, Javascript, Flash, Maya, various IDEs and office suite applications, Windows, Macintosh OS X and Linux operating systems, audio/video and digital photography production and editing.
- Up to date on evolving web/internet standards and emergent technologies, and able to adapt quickly to new technology or platforms.
- Highly motivated, accurate and detail-oriented with an emphasis on maintaining the highest quality while meeting goals and schedules.
- Able to work well under pressure and manage multiple projects and tasks, independently or as a team.

EXPERIENCE

MISCELLANEOUS WEB DEVELOPMENT AND SUPPORT 2010 - 2011

Web design and development

I worked on several projects involving website development and updates, including creation of a Flash-based game application and development of several CMS plugins, and assisted in the integration of several disparate systems to create a unified website for an area church. I enhanced my skills in the areas of HTML/CSS, PHP, Flash and Javascript while providing training and support in those areas to other individuals.

VILLAGE OF ROSCOE POLICE DEPARTMENT ■ Roscoe, Illinois 2008 - 2009

Website Customization and Compatibility

I worked as part of a team creating a website (www.roscoepolice.com) for the Village of Roscoe Police Department. My primary responsibility dealt with modifying an existing template (chosen by the Police Chief) to improve cross-browser compatibility. In addition, I assisted in modifying some of the PHP files to enhance certain features on the site. The host server is Linux-based.

VILLAGE OF ROSCOE ■ Roscoe, Illinois 2005 - 2008

Website Design and Setup

In 2005, I created a website for the Village of Roscoe based on an initial concept developed by one of the Village Trustees. I discussed requirements and ideas with Village representatives and created a website which would present a positive image for the Village. I provided training to those personnel on maintenance of the site. Upon completion, I distributed information about the site to create public awareness of it. In 2008, I converted the site to a WordPress CMS. During the process, I customized and enhanced several features of the Wordpress CMS package. In addition, I created several entirely new features using my skills in HTML, CSS, PHP, Javascript and Flash. This site is also hosted on a Linux-based server.

THETA CHI FRATERNITY ■ Peoria, Illinois 2008

Webmaster

I served as Webmaster for my fraternity's website (www.buox.org), and oversaw the conversion from an outdated system on a Windows server to a Wordpress CMS on a Linux host.

BRADLEY UNIVERSITY ■ Peoria, Illinois 2008

Lab Aide, Art Department Photo Lab/Darkroom

My duties included assisting students, mixing chemistry, maintaining and checking out equipment and supplies, and maintaining and cleaning the darkroom.

ROBERT J. WISE

MOON CRAYON ■ Roscoe, Illinois

2007 - 2008

Website Creation and Modification

I created a website (www.mooncrayon.com) as part of a university class project. I leveraged Amazon APIs to create a book database. I maintain the site with the intent of eventually enhancing it to create a "real" site showcasing my abilities. I created the site using my skills in HTML, CSS, PHP, Javascript, Flash, Photoshop, Illustrator and ImageReady.

EDUCATION

BRADLEY UNIVERSITY ■ Peoria, Illinois

Bachelor of Science in Communications – Interactive Media (major) / Studio Art (minor)

Courses included introductory, intermediate and advanced multimedia, web design (HTML, CSS, Flash/Flex, etc.), computer scripting languages (PHP, Javascript, etc.), graphic and studio arts, typography, audio and video production, and general education. Made Dean's List in Communications (Multimedia) during my Junior and Senior years.

ROCK VALLEY COLLEGE ■ Rockford, Illinois

Information Technology, Computer Graphics

Summer courses included Photoshop, Illustrator, Personal Computer Technology and Electronics.

HARLEM HIGH SCHOOL ■ Machesney Park, Illinois

Diploma awarded: June, 2006

Courses included A+ Networking, Graphic Arts and Printing, and General Education courses.
